Weekly Coal Production

Production for Week Ended:
July 14, 1990

See Coal Highlights

Preface

The *Weekly Coal Production (WCP)* provides weekly estimates of U.S. coal production by State. Supplementary data are usually published monthly in two supplements: the Coal Exports and Imports Supplement and the Domestic Market Supplement. The Coal Exports and Imports Supplement contains detailed monthly data on U.S. coal and coke exports and imports. The Domestic Market Supplement contains detailed monthly electric utility coal statistics, by Census Division and State, for generation, consumption, stocks, receipts, sulfur content, prices, and the origins and destination of coal shipments. This supplement also contains summary-level, monthly data for all coal-consuming sectors on a quarterly basis.

Preliminary coal production data are published quarterly, based on production data collected using Form EIA-6, "Coal Distribution Report." The coal production estimation error for a quarter at the national level (i.e., the difference between the sum of the weekly estimates for a quarter and the quarterly EIA-6 preliminary data) ranges from 1 percent to 4 percent.

Final coal production data are published annually, based on the EIA-7A coal production survey. The revision error for a quarter at the national level (i.e., the difference between the EIA-6 preliminary data and the EIA-7A final data) ranges from 0.02 percent to 0.08 percent.

This publication is prepared by the Coal Division; Office of Coal, Nuclear, Electric and Alternate Fuels; Energy Information Administration (EIA) to fulfill its data collection and dissemination responsibilities as specified in the Federal Energy Administration Act of 1974 (P.L. 93-275) as amended. *Weekly Coal Production* is intended for use by industry, press, State and local governments, and consumers. Other publications that may be of interest are the quarterly *Coal Distribution Report*, the *Quarterly Coal Report*, *Coal Production 1988*, and *Coal Data: A Reference*.

This publication was prepared by Wayne M. Watson and Michelle D. Bowles under the direction of Mary K. Paull and Noel C. Balthasar, Chief, Data Systems Branch. *Questions on energy statistics should be directed to the National Energy Information Center (NEIC) at (202/586-8800).*

Released for printing July 20, 1990

Summary

U.S. coal production in the week ended July 14, 1990, as estimated by the Energy Information Administration, totaled 19 million short tons. This was 35 percent more than in the previous week, which included the Independence Day holiday and the second week of the United Mine Workers of America (UMWA) members' vacation period. Coal production

was 33 percent higher than in the comparable week in 1989, when a 5-day work stoppage (memorial period) was called by the UMWA for mines East of the Mississippi River. Production East of the Mississippi River totaled 11 million short tons, and production West of the Mississippi River totaled 8 million short tons.

Coal Highlight

Producing Coal Leases on Federal Lands, Fiscal Year 1989

State	Producing Leases		Production FY89 (Million Tons)	Production Value (Million Dollars)	Royalty Value (Million Dollars)
	Number	Acreage			
Total	136	243,344	211.4	2,228	186.8
Alabama	1	120	0.1	3	0.2
Colorado	33	40,771	10.7	210	14.4
Kentucky	2	1,286	0.2	5	0.4
Montana	12	32,220	21.5	245	26.3
New Mexico	6	13,874	5.7	144	17.7
North Dakota	8	9,542	5.2	43	4.1
Oklahoma	2	2,228	0.1	2	0.1
Utah	39	41,503	15.5	272	19.5
Washington	1	241	0.7	14	0.2
Wyoming	32	101,559	151.7	1,289	103.8

Note: The statistics represent production and royalties reported during FY 1989 and adjustments made during FY 1989 for prior periods. The FY 1989 royalty management statistics may not represent actual production achieved in FY 1989 or the royalty accrued on that production due to adjustments for previous years. Estimated in part.

Action Required to Stay on EIA Mailing List

Did you return your Energy Information Administration (EIA) 1990 Publications Subscription Renewal Notice? It must be signed and returned by July 31, 1990. If not, your name will be removed from the EIA publications mailing list and you will no longer receive EIA publications free of charge.

If you did not receive a Renewal Notice and wish to remain on the mailing list, please call the National Energy Information Center at (202) 586-8800.

Note: This review does not apply to paid subscription lists maintained by the U. S. Government Printing Office.

This publication is available from the Superintendent of Documents, U.S. Government Printing Office (GPO). Information about purchasing this or other Energy Information Administration (EIA) publications may be obtained from the GPO or the EIA's National Energy Information Center (NEIC). Questions on energy statistics should be directed to the NEIC by mail, telephone or telecommunications device for the deaf (TDD). Addresses, telephone numbers and hours appear below.
